Move Changes

Sacred Gold Plus 1.3.2 - current English reference.

All 467 moves were checked against unmodified HeartGold. These are the 52 changed definitions, including inherited Plus changes. They apply in both difficulty modes and all five languages.

Names below are the actual English game names. Accuracy 0 skips the ordinary accuracy check. PP means base PP before PP Ups. The game retains selected older mechanics, so later-generation move descriptions may differ.

Forty-nine complete current records already match Plus 1.01. Moonblast and Play Rough use corrected damaging effects by Plus 1.1. Will-O-Wisp accuracy increased from 75 to 85 in 1.3.1. Earlier Plus versions do not establish which changes originated in Sacred Gold.

004 Comet Punch

+Type: NORMAL to Fairy

006 Pay Day to Baby Eyes

+Effect: damaging hit that scatters prize money to lowers the target's Attack by one stage
+Category: Physical to Status
+Power: 40 to 0

+Power: 130 to 140

409 Drain Punch

+Power: 60 to 75
+PP: 5 to 10

463 Magma Storm

+Accuracy: 70% to 75%

Details that differ from later games

Baby Eyes has priority +6. Drain Kiss restores half the damage dealt and does not make contact. Dazzle Gleam targets one selected battler. Moonblast has a 10% Sp. Atk drop. Fairy Wind has accuracy 0, so there is no ordinary accuracy roll. Play Rough has a 10% Attack drop. Magical Leaf is Ice type.

The stored effect-chance byte is shown whenever it changes. Direct status effects do not use it as a separate damaging-hit probability. Internal flag 0x40 is included without assigning it an unverified gameplay meaning.
